PROFESSIONAL SUMMARY

Full-stack developer with 3 years of professional experience (Eos Chimera Technologies, 2017–2020) specializing in Angular/NestJS/PostgreSQL. After career transition period, expanded expertise to React/Next.js ecosystem through production applications including enterprise platforms and revenue-generating membership systems. Demonstrated ability to deliver measurable results: **93% efficiency improvements**, real-time collaboration features, and systems managing **■21,200/month in revenue**. Now seeking full-time position to apply modern full-stack expertise.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: React.js, Next.js 14, Angular, Redux, Context API, Tailwind CSS

Backend: Node.js, NestJS, Express, RESTful APIs, Serverless Functions

Database: PostgreSQL, Supabase, Prisma ORM, MongoDB

Tools & DevOps: Git/GitHub, Docker, Vercel, npm/yarn, Webpack

Other: Responsive Design, Agile/Scrum, Cross-browser Compatibility

WORK EXPERIENCE

Junior Web Developer • Eos Chimera Technologies (Sep 2017 – Jul 2020, Cebu City, Philippines)

- Developed and maintained Angular/NestJS e-commerce admin dashboard with PostgreSQL backend.
- Optimized database queries and API endpoints, improving dashboard load times and overall system performance.
- Managed deployment pipeline using Git, Docker, and PostgreSQL, ensuring 99%+ platform availability.
- Collaborated with 5-person development team on feature enhancements and UI/UX improvements.
- Participated in code reviews and maintained documentation for system architecture.

Skills Development & Independent Projects (2020 – 2024, Remote)

- Transitioned from Angular to React/Next.js through hands-on projects.
- Built production applications demonstrating full-stack capabilities (TypeScript, Supabase, Prisma).
- Focused on serverless architecture, real-time features, and responsive design best practices.
- Developed OGMOK Jiu-Jitsu Academy membership system managing 23 students and **■21,200/month** revenue.

Contributing Developer • Codebility (2024 – Present, Remote)

- Contributing to enterprise-grade internship and team management platform using Next.js 14, TypeScript, and Supabase.
- Implementing real-time collaboration features, authentication flows, and RESTful API integrations.
- Working with Kanban board system, multi-step application flows, and role-based access control.

FEATURED PROJECTS

OGMOK Jiu-Jitsu Academy – Membership Management System (React, Node.js, PostgreSQL, Prisma ORM, Vercel)

- Reduced attendance logging time by 93%.
- Full-stack system managing 23 active students and **■21,200/month** revenue.
- Integrated automated SMS notifications via Semaphore API.
- Built attendance modal with filtering, and dashboard with real-time stats.

Codebility Platform – Enterprise Internship Management (Next.js 14, TypeScript, Supabase, Tailwind CSS, Zustand)

- Contributing to production platform featuring multi-step application and Kanban workflow.
- Developed real-time collaboration and team communication features.

E-Commerce Product Page Component Library (React, Next.js, Atomic Design Principles)

- Built reusable component library following Atomic Design methodology.
- Implemented responsive product displays with add-to-cart functionality.

EDUCATION

Bachelor of Science in Information Technology – Asian College of Technology, Cebu City (2008 – 2013)
